A Matter of Life and Breath:

UPDATE ON LUNG CANCER

Maybe you think you know all you need to know about lung cancer. Maybe you think it’s not possible to find it early, that it happens only to cigarette smokers, and nobody diagnosed with lung cancer survives. If that’s what you think, you haven’t heard of new research supporting lung screening for early detection or advanced targeted therapies for successful treatment. Maybe you need to know more.

Join us for a special program at The Cancer Center. Our doctors will make sure you are up to date on why our nation’s biggest cancer killer doesn’t have to be. It’s a matter of life and breath.

Thursday, January 31
6:00 p.m. to 7:30 p.m.

Presenting physicians:
Dr. Andres Bhatia
Dr. Allison Grow
Dr. Manish Jani
Dr. Jeffery Snyder

Please RSVP by January 30.
Call 1-800-611-6913
