

**North Central Florida Cancer  
Control Collaborative**  
One Community Fighting Cancer

**Be the solution. Join NCFCCC.**

***Did you know...***

The rate of **lung cancer** in North Central Florida is **42% higher** than the rate for the **state**.

***Cancer has a huge impact on our region*** with the cancer rate nearly **28% higher** than Florida.

**Learn what these numbers mean and what you can do to be part of the solution.** Join us at the upcoming North Central Florida Cancer Collaborative (NCFCCC) Meeting to review the latest cancer data for North Central Florida and discover how we can fight cancer as one community.

You're invited to the:  
**NCFCCC Meeting**

**When:** Wednesday, Dec. 5, 2012  
from 3 to 5 pm

**Where:** Senior Recreation Center  
5701 NW 34th Street  
Gainesville, FL 32653

**For more info and to RSVP:**  
nfcancercontrol@gmail.com  
352-313-6500 x 115

Healthcare providers, government agencies, and community and faith-based organizations are encouraged to attend. The general public is welcome.
